

**Math-O-Graphy:** We would love to know about your mathematical mind and how you learn best in the math classroom. Answer these questions using complete sentences. You can use a bulleted list, you can answer each question separately, or you can write in a paragraph. Please keep everything on this document and then submit.

Tell us about your math experiences and learning styles.

1. How did you do last year? Explain.
2. Give a summary of your experiences with math in elementary and middle school- good and bad.
3. What makes a great math teacher. Discuss what works well and what does not for you. Let us know if there is anything we can do to help you learn.
4. What topic do you like learning about in math? What types of activities have you done in classes that have helped you learn that topic?
5. What topics did you not like learning about in math. What types of activities have you done in classes that have not helped you learn math.
6. Is there anything you really struggled to learn and would like more help learning in 7th Grade?
7. What style of learning works best for you? Do you like working in groups, independently, online, on projects, etc. What doesn't work as well? Explain.
8. How did Remote Learning work in math class last year? Was it easy to learn this way? Was it difficult? What do you need?
